Booth L7

TeleVox Software, Inc. provides automated messaging solutions that enable financial organizations to enhance the service they provide to members. With HouseCalls™, organizations can deliver collection calls, appointment reminders, marketing campaigns, member satisfaction surveys and other messages while effectively managing communication costs. HouseCalls messages use natural human voices and include numerous response options to allow call transfers, language preferences and more. TeleVox also offers its SmartAppend® database management service to verify and append member contact information. SmartAppend increases communication success rates while reducing the high expenses of failed customer contact.
